Skills

HTML5 | CSS3 | JavaScript | Ruby | Rails | Angular | React | Express | MongoDB | PostgreSQL | Node | jQuery | AJAX
RESTful APIs | GitHub | Heroku | Bootstrap | Materialize | SASS | Devise | Passport | JWTs | Socket.io | Web Audio API

Education

General Assembly, San Francisco - Web Development Immersive | Jan 2017 – Apr 2017
Azusa Pacific University, Azusa - Bachelor of Music, Commercial Music | Sept 2010 – May 2014

Projects

PodBooth 🌐 *http://podbooth.herokuapp.com/* 🐙 *https://github.com/wilkdasilk/podbooth*

Angular | MongoDB | Express | Node | Web Audio API | Socket.io | Materialize | Passport
- Chat and streaming app for podcasters, enabling early feedback from subscribers via live listening
- Implemented audio streaming feature, requesting access to user's microphone, transmitting recorded chunks, and syncing playback via audio buffer
- Implemented chat feature, including live-updated commenting and upvoting via Socket.io

NoiseFlag 🌐 *http://noiseflag.herokuapp.com/* 🐙 *https://github.com/wilkdasilk/noiseflag*

Ruby on Rails | Spotify API | Geocoder | Searchkick | Google Static Maps | PostgreSQL | Bootstrap | SASS
- Web app for curating crowdsourced playlists around a geolocation
- Implemented track search feature, including JSON endpoint returning Searchkick results, or if none, proxy to Spotify API using HTTParty
- Implemented check-in feature, requesting user's location via HTML5 Geolocation, or if unavailable, via IP address, and confirming proximity to flag location via Geocoder gem

Experience

Accounting Assistant, USL Cargo Services (Newport Beach, CA)
- Assisted general accountant in full cycle with emphasis on payables, according to GAAP standards
- Processed invoices for payment, ensuring timeliness and accuracy

May 2016 – Dec 2016

Bookkeeper, Dominic's Trattoria (St. Louis, MO)
- Maintained general ledger and generated reports
- Provided team support as needed, including maintaining company website and serving front-of-house

Sept 2015 – April 2016
